# Question 1

---

Question Type: MultipleChoice

---

Which statement about Oracle Integration (OIC) is NOT valid?

## Options:

---

A- When you open the Map Editor for a request or response message in an integration, the data structures are automatically populated with the information pulled from the trigger and invoke connections.

B- An application pattern integration can contain one or more trigger (source) connections for requests sent to OIC and one or more invoke (target) connections for requests sent from OIC.

C- Using the connectivity agent, you can create hybrid integrations and exchange messages between applications in private or on-premises networks and OIC.

D- OIC Lookups are based on a static definition, meaning you create and populate them during design time.

## Answer:

---

B

# Question 2

---

Question Type: MultipleChoice

---

Oracle Integration Cloud (OIC) Service is available in two editions, Standard and Enterprise. Which two OIC Enterprise Edition capabilities are ALSO available in OIC Standard Edition?

## Options:

---

A- File Server

B- Visual Builder

C- Integration Insight

D- B2B Trading Partner Agreements

E- Enterprise Application adapters (such as EBS, JDE, SAP, and Siebel)

## Answer:

---

A, B

## Question 3

---

Question Type: MultipleChoice

---

Which type of certificate requires the uploading of a keystore (.jks) file in Oracle Integration Cloud to facilitate two-way SSL communication with external services?

### Options:

---

- A- Unified Communications Certificate
- B- Multi Domain Certificate
- C- Identity Certificate
- D- Message Protection Certificate

### Answer:

---

C

## Question 4

---

Question Type: MultipleChoice

---

Which are types of certificates in Oracle Integration Cloud (OIC) that can be imported from the Certificates page under settings? Select THREE.

### Options:

---

- A- Identity certificates
- B- Message protection certificates
- C- Multi Domain SSL Certificate
- D- Unified Communications Certificate
- E- Trust Certificate

### Answer:

---

A, B, E

## Question 5

---

Question Type: MultipleChoice

---

Your team is using a JavaScript library function within an Oracle Integration (OIC) integration flow. Because of business requirements, one of the functions needs to be updated with additional code to incorporate new logic. Which consideration regarding JavaScript library functions is NOT valid?

### Options:

---

- A- JavaScript functions are not allowed to make outbound calls to external services.
- B- The JavaScript action has a timeout threshold of 60 seconds.
- C- Active integrations using a function that has been updated must be reactivated.
- D- Network, disk, or thread access is not supported from within a JavaScript function.

### Answer:

---

A

## Question 6

---

Question Type: MultipleChoice

---

You are implementing a synchronous Oracle Integration (OIC) integration flow that processes file records within a While loop action. At the end of each loop, you want to delay processing of the next record for a certain period. Which is a valid consideration when using the Wait action in this scenario?

### Options:

---

- A- The Wait action can only be positioned as the last action within the loop.
- B- The Wait action cannot be used in a synchronous flow.
- C- The maximum wait time cannot exceed 300 seconds.
- D- The maximum wait time cannot exceed 20 seconds within a While loop.

### Answer:

---

C

# Question 7

---

Question Type: MultipleChoice

---

You are an Oracle Integration (OIC) specialist working on a project to integrate two systems using OIC. Although the integration tested successfully in the development environment, you notice that the integration instance fails to execute in production and returns an error message. Which step would you first take to troubleshoot the issue?

## Options:

---

- A- Increase the number of instances to handle the error.
- B- Contact Oracle Support.
- C- Immediately restart the integration instance.
- D- Check the instance activity stream for specific error messages and details.

## Answer:

---

D
