Question 1

Question Type: MultipleChoice

A customer needs to deploy a NIM LLM with HPE Machine Learning Inference Software running on HPE Private Cloud AI (AI Essentials 1.6.1).

What is one option for the image for serving the model?

Options:

- A- A custom image stored in the customer's choice of registry
- B- An image available in the public NGC registry
- C- An image stored in the HPE Private Cloud AI registry
- D- A BentoML image provided by HPE Machine Learning Inference Software

Answer:

C

Question 2

Question Type: MultipleChoice

What is one difference between a Class 1 and a Class 3 HPE Slingshot topology?

Options:

- A- The Class 1 topology supports more compute node NICs per switch than the Class 3 topology.
- B- The Class 1 topology scales to a larger number of compute node NICs than the Class 3 topology.
- C- The Class 1 topology supports a higher ratio of L1 and L2 links versus L0 links than the Class 3 topology.
- D- The Class 1 topology supports additional adaptive routing technologies beyond those supported with the Class 3 topology.

Answer:

A

Question 3

Question Type: MultipleChoice

You need to connect several existing HPE Cray XD servers to a new HPE Slingshot network featuring HPE Slingshot ToR switches.

The servers have existing 200 Gbps Ethernet NICs.

What is required?

Options:

- A- Replacing the NICs with InfiniBand NDR NICs
- B- Checking whether the NICs are qualified for connecting to the HPE Slingshot switch
- C- Replacing the NICs with HPE Slingshot NICs
- D- Installing an LNet router between the servers and HPE Slingshot switches

Answer:

B

Question 4

Question Type: MultipleChoice

You are proposing HPE Private Cloud AI to a financial institution and want to demo the solution running a complex AI-enabled security application.

What can help you to accelerate the development of the demo?

Options:

- A- Finding sample Kubeflow pipelines in the HPE AI Essentials shared volume
- B- Looking for an appropriate NVIDIA blueprint in the NGC catalog
- C- Using tools within NVIDIA AI Enterprise Base Command Manager
- D- Searching for tutorials in the HPE AI Essentials documentation

Answer:

B

Question 5

Question Type: MultipleChoice

A customer uses HPE Synergy servers as VMware ESXi hosts, assigned to clusters.

What is one action that is enabled by your importing the ESXi clusters in HPE OneView for vCenter?

Options:

- A- Dynamically moving VMs away from a host that is experiencing hardware failures
- B- Selecting the local drives used for the vSAN capacity tier
- C- Provisioning a datastore from a connected SAN array
- D- Applying workflows that incorporate vCenter and OneView tasks

Answer:

A
