Question 1

Question Type: MultipleChoice

A company implements the performance management feature in Dynamics 365 Human Resources.

Which performance management component can employees create by using the Employee Self-Service workspace?

Options:

- A- Goals
- B- Workflows
- C- Performance reviews
- D- Performance Journal

Answer:

D

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/human-resources/hr-develop-performance-management-overview>

Question 2

Question Type: DragDrop

A company uses Dynamics 365 Supply Chain Management to manage production facility assets.

A shop floor worker reports that a heating element in a hot water heater has stopped working and needs to be replaced.

The shop floor manager recommends that all water heaters be checked for signs of failure.

You need to check and replace any failing heating elements in the facility.

What should you use? To answer, drag the appropriate concepts to the correct descriptions. Each concept may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Objects	Answer Area	Description	Object
<input type="text" value="Asset"/> <input type="text" value="Asset BOM"/>		Track replacement parts for a heating element.	<input type="text"/>
<input type="text" value="Asset management"/> <input type="text" value="Attributes"/>		The amount of hot water that the heater must be able to generate.	<input type="text"/>

Question 4

Question Type: MultipleChoice

A company uses Dynamics 365 Commerce. The company is launching a new product line for select stores.

The company wants to ensure that stores participating in the launch receive the new products. Stores that are not participating in the launch must not be able to order the products.

You need to recommend a method to help the company launch the new product line.

What should you recommend?

Options:

- A- Define products for distribution using product assortment.
- B- Define products for distribution using security roles.
- C- Control product distribution using purchase agreement.
- D- Control product distribution using trade agreement.

Answer:

A

Question 5

Question Type: MultipleChoice

A company uses Dynamics 365 Commerce to manage omnichannel operations.

An account manager needs to send reports to customers that contain information such as recent sales orders, customer information, and open quotations from the system.

Each account manager has a requirement to build and use their own report layouts that contain images, static text, and information unique to the customers.

The account managers do not have developer privileges.

The reports must be generated in their final format from Dynamics 365 Commerce.

You need to determine which technology the account managers can use to build their reports.

Which technology should you select?

Options:

- A- SQL Server Reporting Services reports
- B- Power BI reports
- C- Microsoft Word
- D- PDF

Answer:

Question 6
