---

**Question: 1**

---

HOTSPOT

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

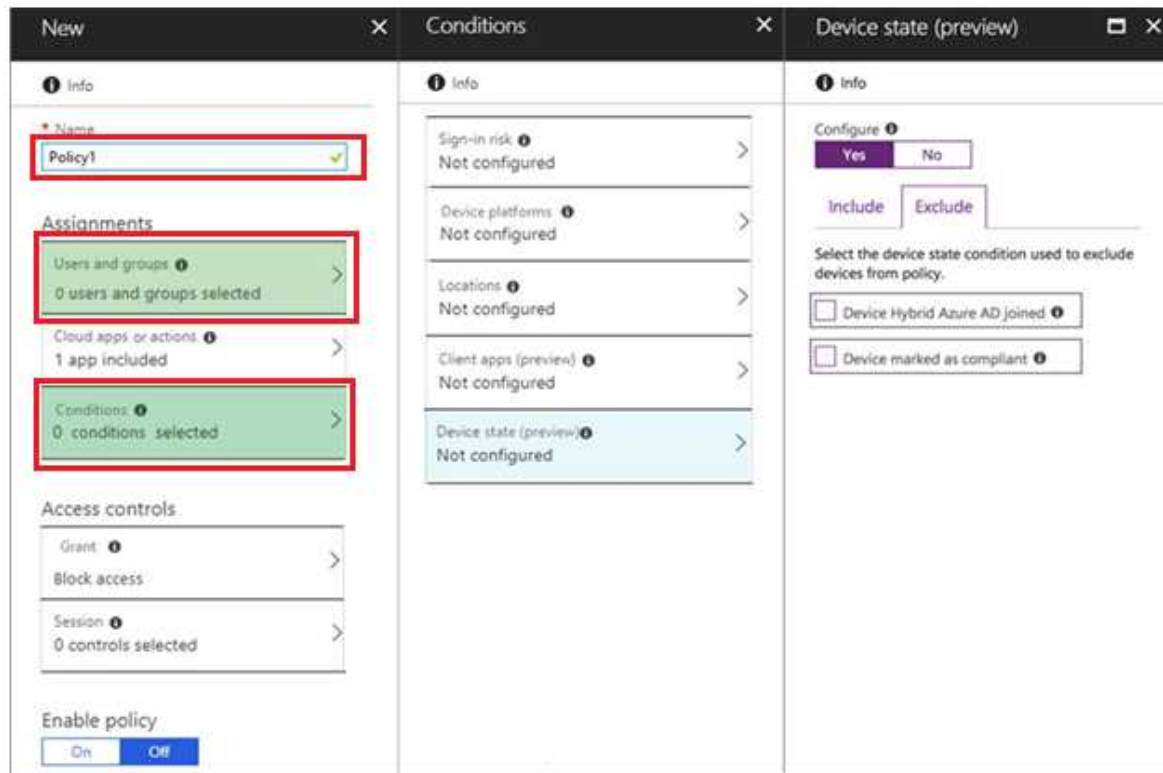

The screenshot displays three panels from the Microsoft Intune console:

- New Panel:** Shows the 'Name' field set to 'Policy1'. Under 'Assignments', 'Conditions' is selected with 0 conditions chosen. Under 'Access controls', 'Grant' and 'Block access' are visible. The 'Enable policy' toggle is currently set to 'Off'.
- Conditions Panel:** Lists several conditions that are 'Not configured': Sign-in risk, Device platforms, Locations, Client apps (preview), and Device state (preview). The 'Device state (preview)' condition is highlighted in light blue.
- Device state (preview) Panel:** Shows a 'Configure' section with 'Yes' selected. Below it are 'Include' and 'Exclude' buttons. A section titled 'Select the device state condition used to exclude devices from policy.' contains two checkboxes: 'Device Hybrid Azure AD joined' and 'Device marked as compliant', both of which are currently unchecked.

**Answer:**

---

**Question: 2**

---

On which server should you install the Azure ATP sensor?

- A. Server 1
- B. Server 2
- C. Server 3
- D. Server 4
- E. Server 5

---

**Answer: A**

---

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning>

However, if the case study had required that the DCs can't have any s/w installed, then the answer would have been a standalone sensor on Server2. In this scenario, the given answer is correct. BTW, ATP now known as Defender for Identity.

---

**Question: 3**

---

You need to meet the compliance requirements for the Windows 10 devices.

What should you create from the Intune admin center?

- A. a device compliance policy
- B. a device configuration profile
- C. an application policy
- D. an app configuration policy

---

**Answer: C**

---

Explanation:

---

**Question: 4**

---

HOTSPOT

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Settings to configure in Azure AD:

▼
Device settings
Mobility (MDM and MAM)
Organizational relationships
