Question: 5

HOTSPOT

You need to embed the check-in solution into the communication solution. To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

| What must you use to embed the check-in solution?	▼
	Visual Studio
	Power Apps Web Studio
	AI Builder
	Common Data Service

Where must the check-in solution be available within the communication solution?	▼
	chat section of the solution
	Microsoft 365 Apps selection grid
	in an embedded webpage
	in a tab

Answer:

Explanation:

What must you use to embed the check-in solution?	▼
	Visual Studio
	Power Apps Web Studio
	AI Builder
	Common Data Service

Where must the check-in solution be available within the communication solution?	▼
	chat section of the solution
	Microsoft 365 Apps selection grid
	in an embedded webpage
	in a tab

Box 1: Power Apps Web Studio

Scenario: The check-in solution must continue to function if there are internet issues. If the self-service kiosks are not available, staff must be able to use the check-in solution from within their communication solution.

PowerApps Studio is a browser application used to edit your apps. PowerApps Studio includes a drag-and-drop canvas in the center of the screen and a screen or object list pane on the left. Properties, Rules, and Advanced Properties for selected screens or controls are displayed in the right

pane.

Box 2: in a tab

You can customize the Teams experience by adding Power Apps canvas apps to your channels in Teams using the PowerApps tab.
